FRANK E. LANGLEY, Publisher

If the Germans fail to break through the allies' line in western Europe at this attempt they never will be able to do so.

There is no doubt whatever that Governor Gates has made his position very clear on the prohibition referendum matter.

The esteemed Rutland News tells in its news columns of a "five deer" bounding across the fields east of Rutland. We suppose the deer were merely lope along, browsing as they go.

Another British courier's jury has indicted the kaiser with "wilful murder" in connection with a recent air raid. The next thing will be to send Scotland Yard over to get the accused.

When you go to Europe the coming summer, it would be a good policy to find out if the ship carries mounted guns. You might be saved some slight annoyance from a German submarine on the other side.

Those thousands of Canadians who showed their resentment against Germany by destroying a statue of the kaiser's grandfather at London, Ontario, could vent their ire to better advantage by meeting the kaiser himself on the field of battle. 'Twould count more, too.

The voters of Barre should bear in mind that the citizens' caucus for nominating candidates for municipal office during the ensuing year will be held at the opera house to-morrow evening and that the various ward caucuses in which there are expirations of terms will be held on the evening following.

A Vermont man whose occupation is listed as a "farm laborer" has just filed a petition in bankruptcy. We know of no occupation in which the embarrassment of poor finances is less likely to strike than in this same work of farm employment; and there must be very unusual circumstances which caused the petition in question to be filed. If the farm laborer who gets his wages and "keep" isn't able to make both ends meet he is an odd person.

The new president of the Boston National baseball club was given the profession O. K. because he consented to eat an onion sandwich along with the baseball boys at 3 a. m. in just a plain hotel bedroom. There isn't a breath of suspicion about the "Harvard manners" of the new baseball magnate albeit there may be a whiff of the all-American plant. "High-brows" desiring to break in baseball society should eat onions, it seems.

By sending troops into Albania, Italy is drawing several paces nearer to actual war against Germany.

One of the most miserable miscreants is the interloper who unlawfully breaks into other people's buildings and then, either through carelessness or design, heaps on the offense by causing the destruction of the buildings, as happened at Sheldon when the floral hall of the Franklin County Fair association was burned. Efficient detective work ought to be brought into operation in order to ferret out the offender, or offenders, in this case. If the double offense should be traced to tramps, conviction would rid the state for the time being of persons who would be likely to repeat the crime in some other locality; if it was done by local parties, a serious menace would also be removed, through such determination of guilt—a menace, however, of more localized influence. That the building destroyed was semi-public property and was for the time abandoned for human occupancy does not make any difference in the degree of the culpability of the offenders.

VERMONT'S ESTIMATED POPULATION.

In making estimates of population of the several states, the U. S. census bureau credits Vermont with a prospective gain of 1,247 people from July 1, 1915, to July 1, 1916. The estimates are based on the change in population as revealed in 1900 and 1910 censuses and are, of course, not considered entirely reliable. It seems to The Times as if the estimate of the gain in Vermont is too moderate inasmuch as there has been a considerable influx of population through the increased impetus to nearly all the industries in various parts of the state during the last few months. Reports from many of the industrial centers of Vermont indicate thriving industrial conditions, which, in turn, must mean greater employment and consequent acquisitions of population. There is some cause of satisfaction, however, in the report of the census bureau inasmuch as the neighboring state of New Hampshire is credited with a gain of only 1,922, while Iowa actually retrogressed in population, according to the same tabulation.

Fire in Quebec.

Quebec, Feb. 16.—Firemen were called out at 2 p. m. yesterday by a double alarm for a fire in the Quebec Central railway offices. Half an hour later the blaze was said to have gained considerable headway.

Here are the skating togs—for girls as well as boys.

Our overcoats will "dig themselves in" with the boys—they are made to suit boys—to suit their ideas of ease and comfort.

Roomy and short, and patterns that win.

Mackinaws that are better than ever—all of the old comfort and a lot of new style.

Sweaters with the new collar.

SPECIAL

Only a few of the boys' suits and overcoats left—\$1.20, \$1.80, \$2.40, \$3.00, \$3.50; values, \$2.00 to \$7.50.

We Clean, Press, and Repair Clothing

CURRENT COMMENT

The commission form of government is slowly gaining, there now being 81 of the 204 cities of 30,000 or more inhabitants in the United States under that form of government. Five of these cities are in New England. Vermont should begin agitation for an enabling act to be passed by the next legislature so Vermont towns or cities can adopt that form of government. Everywhere this form of government has been introduced expenses have been reduced and where it has not been introduced expenses are steadily increasing. With the rapidly increasing expenses of national and state governments the necessity of a cheaper but efficient local government is more keenly recognized. Vermonters want the privilege of trying this improved method of doing municipal business.—St. Johnsbury Caledonian.

Question of "Defense" and "Offense"

Knotty.

The German government in asking the United States to consider armed belligerent merchant ships fair game for submarines has started world-wide discussion.

Secretary Lansing has already suggested to the allies that it would simplify matters for everybody if they would disarm their merchant ships and thus create an exemption from being sunk by submarines without warning.

One of the strongest points in our contention against Germany over the sinking of the Lusitania was that the Lusitania was unarmed.

If a merchant vessel is armed it is next to impossible to determine whether it acts against a submarine in offense or defense, especially since ramming a submarine has not been infrequent. It becomes chiefly a question of who hit first, and that is hard to determine.

Also if it is true, as numerous critics of President Wilson have held, that the submarine campaign was ended by the British navy and not by our diplomacy, what difference does it make whether British merchant ships are armed or not?

On the one hand is Germany, anxious to find some means to continue her submarine campaign without violation of international law? On the other hand is England determined to maintain her blockade of Germany, even at the expense of unlawful interference with neutral commerce, our own included?

The situation is unique. It offers to our government an opportunity to play off the motives of one side against those of the other and to benefit by so doing. Meanwhile, since the Germans intend to attack armed enemy merchantmen after March 1, and since the British apparently intend to keep their merchant ships armed, whatever status the craft may have officially, armed vessels they actually are, and American citizens had better choose some other craft if they do not wish to get into a fight between a merchant vessel and a submarine. When there is doubt among international lawyers it is better to keep off armed vessels, just as it is wise not to buy a house the title of which is disputed.—Boston Globe.

EAST BARRE.

Regular meeting of W. A. C. T. No. 10, Thursday evening at 7:30. Work, adoption and warrior's degrees, also business of importance.

GOTHIC ARROW COLLAR

Fits the knot of a four-in-hand or bow perfectly. 2 for 25c.

Chert, Penbody & Co., Inc., Makers

WILLIAMSTOWN

Dean Griffith has moved with his family from one of the tenements over the Downs store to the house in the hollow owned by Royal Moulton, and now the property of Harry Daniels of East Montpelier.

Norman Pratt has recovered from a serious attack of chickenpox, and is now able to be out again. His mother, who was sick with the grip at the same time, is also better.

Mrs. William E. Randall, librarian at the public library, was not able to be on duty last Saturday and her place was filled by Mrs. Frank Downs.

Lindsay Winchester, bookkeeper and stenographer at the office of the Union Granite company, Waterbury, was at home over the week end.

Mrs. Joseph G. Reynolds, who was called to town by the serious illness of her mother, Mrs. Elwin J. Clogston, returned to her home in Belmont, Mass., the 14th, leaving Mrs. Clogston much better.

James B. McMillan has finished work for Charles D. Brockway on the south hill, and is around town for a few days. His lunchroom in the grange hall has been closed for about two weeks, but will probably be reopened a little later.

H. A. Thurber is very busy just now, as he has several reports to print for neighboring towns, as well as the one for this town, and all wish them finished as soon as possible.

The Universalist society has invited the members of William Wells post, G. A. R., No. 113, to meet with them for the observance of Memorial Sunday and the invitation has been accepted.

The annual Masonic dance given last week was a very pleasant affair, about sixty-five couples being present. A large delegation came from Barre and others from Granville, Washington, and Brookfield. A meat and oyster supper was served in the dining room and was proven to be both ample in quantity and good in quality.

The Rural Good Luck club will meet next Saturday with Mrs. W. H. Stewart; Topic, "The Development of Water Power in Vermont."

Rev. William L. Boicourt of Waterbury is to speak in the Congregational church on Thursday evening. This service is preparatory to those to be conducted by Rev. Thomas Hall next week.

VERSHERE.

Mrs. Perry still remains very ill and no hopes are entertained of her recovery.

Francis Pratt was at home from Chelsea high school over Sunday.

The auditors are having their annual visit at the town clerk's office.

The whole family at Fred Straw's are ill with the prevailing distemper. Mrs. Clydes Avery is working there, as Ida Townsend is ill.

The community was saddened to hear of the death of Mrs. F. Robinson of Piermont, N. H. Mrs. Robinson's mother was Mattie Clark, a native of Vershire. Don Orr and his mother attended the funeral, as Mrs. Orr was a cousin of Mrs. Robinson.

We are glad to report that the men who are hunting for browntail moth nests are finding very few this year.

Charles Bailey has returned from his vacation, which he spent with his people in New Hampshire.

Lena Pickens is gaining and is able to be around the house.

PROHIBITION COMING UP AT THIS SESSION

Proposals to Postpone Consideration Lost By Tie Vote in Judiciary Committee.

Washington, D. C., Feb. 16.—Prohibition amendments to the federal constitution will be considered by this session of Congress, the House judiciary committee decided yesterday. Proposals to postpone prohibition were lost on a tie vote.

NO PLOT DISCOVERED.

For Operations Against Canada from the United States.

Washington, Feb. 16.—An official report from Boston, denying that the United States attorney's office and customs authorities there had discovered a plot to violate American neutrality by operations against Canada, was received yesterday by the department of justice. Assistant Attorney General Warren said the department was not investigating reports that ammunition and arms had been stored by German sympathizers at various points in the United States. Information as to the whereabouts of these supplies was obtained by the federal government nearly a year ago, he said, and no further inquiry has been made.

WHITE HOUSE CUPID AGAIN.

This Time It's Lavinia Gibson, Laundress—She Elopes.

Washington, D. C., Feb. 16.—Romance has again blossomed forth at the White House. This time Lavinia Gibson, colored, one of the laundresses at the mansion, played the principal role. On Saturday she left her tub and eloped. Her husband imbibed the atmosphere of preparedness, she married a soldier, John Mullen, colored. To-day Lavinia is back at her tub, happy.

AMUSEMENT NOTES.

Matinee and Evening Performance of "Bringing Up Father."

The leading male role in "Bringing Up Father" is Jiggs Mahoney. He is an ideal father and one of the good natured Irishmen who invariably views life through rose tinted glasses. He is not in accordance with his wife's methods of bringing up her family. Jiggs has acquired a large fortune and his wife is busy trying to enter society and ape those that are in it, or think they are in it. As a consequence, husband and wife are at a variance and they have many quarrels. Mrs. Mahoney insists that Jiggs wear a full dress suit at dinner, to which he indignantly demurs. She also insists that he eschew the old beer can and drink his beverages according to the proud ethics of modern society. One can imagine the situations that accrue and the fun that results. Mother desires that one of her daughters, Eleanor, should marry an alleged Spanish nobleman, who turns out to be a crook of the deepest dye. Father wants her to wed an honest American, and in the end carries the day. How this is accomplished is one of the most engrossing things in the play, and to tell about it before hand would spoil one of the best treats of the season. At the Barre opera house, Saturday matinee and evening, Feb. 19. Special prices.—slv.

THE VALUE OF TRUTH

Truth in business is just as important as truth in every-day life; truth creates confidence, establishes good-will and builds a reliability that will not be wrecked by the storms of competition.

Through three generations people have learned to place reliance on the advertised words of Scott's Emulsion, because they are untarnished, unexaggerated truths about a household remedy of real and actual worth.

The popularity of Scott's Emulsion is increasing as intelligence advances, because in these days of adulterations it continues to guarantee pure cod liver oil medicinally perfected with glycerine and hypophosphites to build strength, improve the blood and strengthen the lungs. It is free from alcohol or opiates—a wholesome food- tonic, truthfully advertised.

Scott & Bowne, Bloomfield, N. J. 15-30

A Saloon Friend Turned Foe.

The campaign for national prohibition will take on real zest in Barre when ex-Gov. Malcolm R. Patterson of Tennessee addresses the mass meeting next Sunday afternoon in the Barre opera house at 3 o'clock. He has been rightly named "A Saloon Friend Turned Foe."

Until about four years ago, he was the ablest champion of the liquor traffic in America. When, as governor of Tennessee, the prohibition law passed the legis-

EX-GOV. MALCOLM R. PATTERSON of Tennessee

lature and came to him for his signature, he vetoed it and accompanied his veto with a message in which he characterized the act as "destructive and undemocratic." Although the bill was passed over his veto, Governor Patterson's veto message and speeches, made in defense of his action, were circulated nation wide by the liquor interests in defense of their traffic.

To-day Governor Patterson declares: "I am neither ashamed nor abashed to acknowledge the wrong I did when I once advocated policies which made legal a trade which I have come to look upon as having no rightful place in the economy of Christian civilization. I favor prohibition in any form that will either reduce or destroy the liquor traffic. I favor it person-wide, town-wide, statewide, nation-wide, world-wide."

PREPARE FOR "BABY WEEK"

About 1727 Communities Are Considering the Matter.

There are 1727 communities considering some preparation for baby week, according to the inquiries received by the children's bureau of the United States department of labor. This number does not include those of whose interest in the campaign word has come to the bureau indirectly.

The letters about baby week are still coming in from every state in the union and from every type of community, such as a Colorado settlement, forty miles from a railroad, a club of women on one of the government reclamation projects, a Montana coal mining town with a large foreign population, a southern mill village, and a club of farm women in a middle western state.

Texas has its own baby week slogan—baby health is Texas wealth—and Mississippi has started a competition to secure a slogan for that state. North Dakota reports plans for a state-wide essay contest in the public schools. In a new state campaign the state federation of women's clubs, the state university extension department, the state health officials, and those who are especially interested in education are all cooperating in the baby week campaign.

Many large cities are going to have a baby week. Definite plans are under way in Albany, Baltimore, Boston, Cleveland, Milwaukee, Minneapolis, Philadelphia, Richmond, San Francisco, Washington and other cities. New York had a successful baby week in 1914 and will probably hold another this year in the late spring.

In its suggestions for baby week observance the children's bureau lays special emphasis on the opportunity it affords for extending permanent work for infant welfare, such as infant welfare stations, visiting nursing, special nursing and instruction for prospective mothers, city inspection of milk, special work for the prevention of blindness, and little mothers' classes and home nursing instruction for school girls in the upper grades.

BANISH RHEUMATIC PAIN FOREVER

Opiates and Narcotics Give Only Temporary Relief—Rheuma, Mighty, Powerful and Quick Acting, Decisively Conquers

People who have been tormented for years—yes, even so crippled that they were unable to help themselves—have been brought back to robust health through the mighty power of Rheuma.

Rheuma acts with speed; it brings in a few days the relief you have craved for. It antagonizes the poisons that cause aches and pains in the joints and muscles, and quickly the torturing nervous distress disappears.

It is a harmless remedy, but sure and certain. Because it is one discovery that has forced rheumatism and sciatica to yield and disappear.

Rheuma is rightly guaranteed. Try two 50-cent bottles, and if you do not get the joyful relief you expect, your money will be returned. To supply the ever-increasing demand, the Red Cross Pharmacy always has a supply of Rheuma on hand.—adv.

FARMERS' WEEK PROGRAM.

Every Address a Practical Help in Farm Work.

The eighth annual farmers' week and Chittenden county extension school will be held in Burlington from Monday, Feb. 21, to Friday, Feb. 25, with a general subject, "How May I Best?" There will be 25 addresses by 25 lecturers, interesting, instructive, illustrated. A dozen demonstrations by a dozen experts.

The programs for each day are as follows:

Monday, Feb. 21, "How May I Best?"—8:30, Grow and sell my apples, M. B. Cummings, professor of horticulture; 9:15, Make money out of truck crops, S. Hargreaves, gardener; 10, Carry on a vegetable garden, W. C. Stone, assistant horticulturist; 10:45, Fight our insect enemies, H. F. Perkins, professor of zoology; 10:50, Fight animal pests, P. A. Schneider, instructor in zoology; 2 to 4 p. m., demonstrations in vegetable gardening, Prof. Cummings, Mr. Hargreaves; Farm management, Prof. Burdick; Testing dairy products (fat, moisture, casein, salt), Prof. Story.

Tuesday, Feb. 22, "How May I Best?"—8:30, Train up a child in the way he should go, F. B. Jenks, professor of agricultural education; 9:15, Interest children in farm life by taking them into partnership, E. L. Ingalls, state agent boys' and girls' clubs; 10, Make A-I-m-a-p-le products, C. H. Jones, chemist; 10:45, Handle my wood lot, A. F. Hawes, professor of forestry; 11:30, Make money out of trees, B. A. Chandler, instructor in forestry; 2 to 4 p. m., demonstrations—Sprays and spraying (pomae, nozzles, mixtures), Professors Lottman, Cummings, Messrs. Stone, Bartram, Hargreaves; Farm machinery (power, barn models, water systems), Prof. Burdick; Remodeling farm buildings, Mr. Fiske.

Wednesday, Feb. 23, "How May I Best?"—8:30, Buy feed, J. L. Hills, professor of agronomy; 9:15, Get plenty of eggs when they sell at 50 cents, H. A. D. Leggett, instructor in poultry husbandry; 10, Serve my state, W. H. Crockett, editor university publications; 10:45, Make things convenient in the farm home, Mrs. A. C. Dimock, extension instructor in home economics; 11:30, Make home surroundings attractive, G. P. Burns, professor of botany; 2 to 4 p. m., demonstration—Stock judging, stock display; cows, Prof. Story, Mr. Dana; Poultry judging, killing, canning, Messrs. Leggett and Bowles.

Thursday, Feb. 24, "How May I Best?"—8:30, Build up and handle my dairy herd, G. F. E. Story, professor of animal husbandry; 9:15, Keep my crops healthy, R. F. Lottman, professor of plant pathology; 10, Make my farm pay, R. T. Burdick, assistant professor of agronomy; 10:45, Keep myself healthy, B. H. Stone, professor of pathology and bacteriology; 11:30, Guess what the weather will be, J. K. Hooper, lecturer of meteorology; 2 to 4 p. m., demonstrations—Stock judging; horses, swine, Prof. Story, Mr. Dana; poultry judging, killing, canning, Messrs. Leggett and Bowles; abortion prevention, Prof. Rich and Mr. Downing.

Friday, Feb. 25, "How May I Best?"—8:30, Tell whether my cream tests are accurate, H. F. Johnson, instructor in dairy husbandry; 9:15, Find out and satisfy soil needs, Thomas Bradlee, director extension service; 10, Make use of our county agent, Jay Corvett, state leader extension service; 10:45, Prevent calf scour, F. A. Rich, professor of veterinary science; 11:30, Handle my corn crop, J. W. Dana, Chittenden county agricultural agent; 2 to 4 p. m., demonstrations, elective, according to desires of those attending.

CONDENSED MILK EXPORT.

Has Been Greatly Increased Since the War Started.

Washington, D. C., Feb. 16.—American condensed milk is enjoying a vogue in Europe that it never knew in peaceful times. The exports from this country in 1915 amounted to 76,000,000 pounds, valued at \$8,000,000, according to figures furnished by the bureau of foreign and domestic commerce, and the bulk of these exports went to Europe. In normal times the value of condensed milk sold abroad varies between \$1,000,000 and \$2,000,000, and ordinarily the best customers are Cuba, Panama, China, and Mexico.

The increased exports of condensed milk to Europe are easy to explain, under the circumstances, but there has been an increase in imports from European countries that is puzzling. Italy's recent participation in the American trade has caused some comment, but the fact that Holland and Switzerland sold much larger quantities of milk in the United States in 1915 than ever before is considered more remarkable, for these two countries have access to practically all markets in Europe. The total imports into the United States from all countries in 1915 were valued at practically \$2,000,000, or one-third of the exports, and although Canada furnished more than half, Holland did a business approximating \$800,000 as against less than \$200,000 the year previous. Switzerland now is selling to us at a rate of \$250,000 a year, where formerly practically no milk came from that country.
